Research Funding

Funder	Who they are	Current and previous funding	Website
King's Health Partners	Academic Health Science Centre where world-class research, education and clinical practice are brought together for the benefit of patients.	The King's Health Partners Research and Development Challenge Fund aims to support researchers from across our partners to explore and develop innovative ideas that may lead to new discoveries, therapies or diagnostics with the potential to transform human health. The Fund is designed to help researchers develop an evidence-base sufficient to enable them to apply for more substantial funding from established bodies such as the Medical Research Council or the Wellcome Trust.	http://www.kingshealthpartners.org/research/funding-opportunities
Medical Research Council	The MRC works to improve the health of people in the UK - and around the world - by supporting excellent science, and training the very best scientists.	Research projects that provide evidence on how to strengthen and improve health systems for people living in low- and middle-income countries. Focus on six main science areas: <ul style="list-style-type: none"> • Infections & immunity • Molecular & cellular medicine • Neurosciences & mental health • Population & systems medicine • International and Global health • Translation 	https://www.mrc.ac.uk/funding/
National Institutes of Health (NIH)	NIH's mission is to seek fundamental knowledge about the nature and behaviour of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.	NIH supports Research Training and Career Development programs to help prepare individuals for careers in biomedical, behavioural, social, and clinical research. NIH offers funding for many types of grants, contracts, and even programs that help repay loans for researchers.	https://www.nih.gov/grants-funding
The European & Developing Countries Clinical Trials Partnership (EDCTP)	EDCTP aims to support collaborative research that accelerates the clinical development of new or improved interventions to prevent or treat HIV/AIDS, tuberculosis, malaria and other poverty-related infectious diseases prevalent in sub-Saharan Africa.	EDCTP awards funding to collaborative clinical research projects conducted in sub-Saharan Africa on poverty-related infectious diseases, based on open, competitive and independently reviewed calls for proposals. The EDCTP2 programme is supported under Horizon 2020, the European Union's Framework Programme for Research & Innovation.	http://www.edctp.org/funding/calls-for-proposals/

Fogarty International Center	The Fogarty International Center is dedicated to advancing the mission of the National Institutes of Health by supporting and facilitating global health research conducted by U.S. and international investigators, building partnerships between health research institutions in the U.S. and abroad, and training the next generation of scientists to address global health needs.	The Fogarty International Center at NIH offers a variety of funding opportunities to support the field of global health research. Fogarty also offers a variety of resources for those seeking global health research funding across NIH, and from other organisations.	https://www.fic.nih.gov/Funding/Pages/Fogarty-Funding-Opps.aspx
International Development Research Centre (IDRC)	IDRC fund innovative proposals with the potential to be scaled up to improve more lives in developing countries.	<p>IDRC offers grants, funding, and awards to researchers and institutions to find solutions for global development challenges. Through calls for research proposals, they fund projects that aim to bring employment, food security, health, peace, and prosperity to developing regions of the world. Projects supported are usually in the following areas;</p> <ul style="list-style-type: none"> • reduce poverty and inequity • promote employment and growth • help communities guard against climate impacts • encourage good governance and build strong policies • provide healthy futures for mothers and babies • leverage technology and innovation for growth 	https://www.idrc.ca/en/funding
The Merck Group	Merck is a vibrant team of specialists in Healthcare, Life Science and Electronics. They share a love of science and a passion for technology.	<p>The Merck Group offers research grants program to scientists in all career stages who are affiliated with any research-based institution, university or company.
